

Specialized furniture line providing solutions for collaborative, training, event, and classrooms, and other education spaces

Acton®

PS Furniture purchased the rights to manufacture the iconic Acton stack chair, in production since 1974, designed by award-winning designer Hugh Acton. The textured polypropylene seat and back are available in sixteen standard colors or an upholstery option. Option for tablet arm. This chair is a high-density stacker (26 upholstered and 28 upholstered on a dolly).

NIMA™

Created by award-winning designer Giancarlo Piretti. Includes options for desk, bar, and counter heights. Highly customizable with 12 available shell colors and 5 different finish options, or upholstery option. A high-density stacker (up to 20 sled-base on a dolly).

MUM™

Designed to fit at a coffee table, desk, sit/stand table or counters. Includes a leather handle for ease of relocation. Light, dark or black hardwood base color options. Choice of three base style options: Rock Bottom, Roll Bottom, and High Bottom styles. The textiles are green guard certified.

Snap™ Portable Tables

Hexagonal shaped tables gang together or stay separate and are height adjustable. Super adaptable to any meeting scenario. Poured urethane MAXX Edge® prevents food and bacteria collection. Nesting base allows for extra compact storage when not in use.

WALS™

Lightweight, acoustical panels that can be easily positioned. These help control noisy environments through the use of our patented Revolution® core technology. Wheels can be all wood or include tires for optimal rolling. Highly customizable with 8 Bio-felt colorways and 7-wheel finish options.

Scissor Table™

Center-folding conference, dining and multi-purpose table on casters. Designed with zero pinch points for safety and to fit through doorways and in elevators. Features concealed power cord within column. Wilsonart or Formica laminate surface options and 1000s of edge color options.
