# Connect with CompuCaddy Carts

# CompuCaddy Telemedicine Solutions

## Fusion Series

The Fusion Series Mobile Carts are designed to be your Telemedicine solution. The flexible design allows CompuCaddy to meet your clinical and IT challenges with options like extended work surfaces, camera mounts and dual monitor arms. Your perfect solution is just a conversation away.

- **Power:** Military grade, safe, reliable power system with power level indicator.
- **Ergonomic:** Monitor mount has multiple tilt, swivel and pivot adjustments.
- **Durable:** High density polyethylene and polypropylene with active antimicrobial Celspan®.
- **Maneuverability:** Compact base, built-in handles and 5" rubber tread wheels for full stride walking and navigating tight spaces.
- **Customization:** Personalize your cart with optional accessories and colors.

## OmniCenter

The OmniCenter Workstation is customizable to meet your technology and clinical requirements. There are endless possibilities of configurations and customizations to accommodate any computer equipment, specific needs and applications.

- **Ergonomic:** Monitor mount has multiple tilt, swivel and pivot adjustments.
- **Durable:** High density polyethylene or 3/4" laminate with bump resistant T-Mold.
- **Maneuverability:** Built-in handles and 6" rubber tread wheels allow for maximum ease in moving cart.
- **Customization:** Choose the combination of drawers, doors and shelves that meet your needs.

## Accessorize Your Cart
